

B6716-SS-BK

This multi-function task chair is identical to our B6716-BK mesh back task chair, except it includes a handy seat slider which allows the user to slide the seat in and out adding additional leg space.

Additional features include a mesh back with lumbar support, 3 paddle multi-function tilting mechanism, pneumatic gas lift seat height adjustment, ratchet back height adjustment, and adjustable tilt tension control. Additionally, its 4-inch breathable mesh seat cushion provides ample comfort in any configuration.
